BU Cafeteria Policy

(2022)

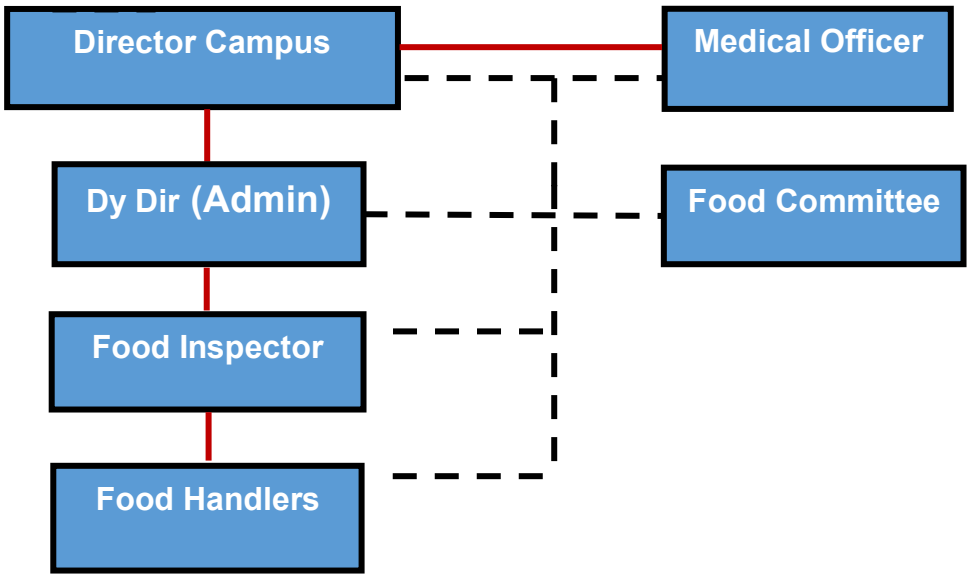
BAHRIA UNIVERSITY CAFETARIA POLICY

1. **Introduction.** Bahria University campuses have quite a large number of food consumers. Although the food service is well looked after by the campuses, still there is a need to standardise and formalise this important area of campus life to improve quality, hygiene and prices. An effort has been made through this policy to improve food management all across Bahria University campuses and Head Office. Active participation in improving food standards by all is solicited.

2. **Aim.** To postulate guidelines for food service at Bahria University in order to provide fresh, healthy and hygienic at affordable prices.

3. **Applicability.** The Cafeteria Policy shall be applying to all cafeterias, kiosks, hostels, pantries messes within Bahria University Head Office, campuses and Constituent Units.

4. **Food Management Hierarchy.** The food management organisation at campuses shall work under Director Campus/CU. The Food Inspector shall work directly under Deputy Director (Admin). The Medical Officer and Food Committee shall have linkages with Administration as shown in the following table.



Legend

Administrative Linkage

Function

5. **General Instructions.** Following instructions are hereby promulgated for guidance and compliance:

a. **Price Control.** The prices along with the weight /quantity/ quality of the food items should be included in the tender documents. For example, a samosa of 125 gms should not be sold at more than 20 rupees per piece. All out efforts be made to generate competition to bring down the prices.

b. **Tenure of Contract.** The maximum tenure of running a business inside Campus be restricted to two years to maintain competition and give an opportunity to newcomers.

c. **Subletting of Contract.** The subletting of the contract is strictly not allowed. The contract of the persons/companies involved in subletting be cancelled. The restriction on subletting is to be included as a clause in the contract.

d. **Food Committees.** To implement Cafeteria Policy, all campuses are to organize Food Committees. The Food Committee is to work under Director Campus through Deputy Director (Admin). Students and faculty volunteers may also be given representation in this committee. The mandate of the committee is as follows:

(1) Preparation of price list and keeping it up to date.

(2) Devise and implement Standard Operating Procedures (SOPs) related to the food safety, hygiene and availability in preparation, both in serving and take away at each campus including waste disposal.

(3) Indicate the food items that should be made available for the students through students' input. Seasonal changes are to be catered for in the menu.

(4) Suggest measures to the campus administration to improve food quality, hygiene and arrangements through market surveys. Various well-reputed universities may also be visited to improve the food facility.

(5) Attend to complaints regarding food made both by consumers and vendors.

e. **Food Inspectors.** All campuses are to nominate a Petty Officer or above from administration to act as Food Inspector for implementation of the Cafeteria Policy and various orders passed by campus administration from time to time. The Food Inspectors are to familiarise themselves with the procedures implemented in the civil and corporate sectors. Necessary training on the subject may be arranged for the nominated Food Inspector and the members of the Food Committee. A close liaison with the local Food Departments and Food Inspectors will help in updating the campus food service. Food Inspectors be empowered to impose fines up to reasonable limits (as decided by the campus administration) for violation of instructions by the food handlers. Major duties of Food Inspector are given at Annex A to this policy.

f. **Standardization of Food Prices.** Food items' prices and weights are to be standardized and promulgated to all concerned.

g. **Display of Price List.** All food vendors are to display the price list duly approved by the campus administration at a conspicuous place.

h. **Reduction in Prices.** All campuses are to take measures to reduce the prices of food items by either reducing the rent or generating competition. A greater number of small but high quality kiosks can help in generating healthy competition.

h. **Diversity in Food Items.** To bring in greater variety and diversity of food items, campuses may consider increasing the number of food outlets.

j. **Penalty for Violations.** Penalties for various violations and deviations are to be promulgated in writing.

k. **On-Campus Cooking.** Campus administration is to ensure that food items other than bakery items are cooked fresh at the campus.

l. **Disposal of Leftover Food.** Campus administration is to ensure that leftover food is taken out of the campus at the close of the day. No leftover food is served the next morning.

m. **Serving of Prohibited Items.** Campus administration is to ensure that banned food items, food from a dubious source, etc. are not served at the campuses. Consumption of Chalia, Gutka, Pan & Chewing gum etc. is to be strictly prohibited. In addition, the items declared unsafe for health by local food authorities should not be used at BU food outlets.

n. **Maintenance of Record and Vendors Profile.** The food inspector is to maintain a record of observations made during his inspections and prepare the vendors' profiles. The vendors with poor profiles should be barred from future contracts.

p. **Campus Medical Officer.** Campus/CUs Medical Officer is to ensure the implementation of the following measures:

(1) **Medical Checkup of Food Handlers.** Campus Medical Officer is to ensure that the medical fitness of food handlers is kept up to date at six-monthly basis by the campus Medical Officer.

(2) **Vaccination of Food Handlers.** Campus Medical Officer is to ensure that all food handlers are vaccinated against diseases as prescribed by the campus medical officer.

(3) **Quality of Potable Water.** High quality of potable water is to be maintained at all campuses. Water samples from all potable water outlets are to be tested in laboratories for fitness for human consumption on a quarterly basis. However, in case the sample of an outlet is unsatisfactory, the test is to be repeated after undertaking corrective measures.

(4) **First Aid Box.** First aid boxes installed in or in the vicinity of kitchens must contain medicine, first aid material concerning kitchen work like burns and cuts.

(5) **Sanitary Rounds.** Sanitary rounds are to be conducted monthly to maintain a high standard of personal and kitchen hygiene.

q. **Facilitation to Persons with Disabilities (PWDs).** All food outlets are to have arrangements to facilitate PWDs in access and serving both.

r. **Fumigation/Insecticide Spray.** The BUHO/ Campuses/ CUs administration is to arrange regular fumigation and insecticide spray in all food outlets. Special attention is to be paid to rats' infestation.

s. **Firefighting Arrangements and Training.** The kitchens are high fire risk areas. All campuses/CUs are to ensure that adequate firefighting arrangements are available at all cooking areas. Formal

training for the food handlers be arranged at each campus on regular basis.

t. **Provision of Items in First Aid Boxes.** The staff working in the kitchen are prone to burns, cuts etc. First aid boxes are to be installed in the kitchen or its vicinity for quick availability for kitchen staff.

4. **Review.** All campuses and CUs are requested to implement the subject policy in letter and spirit. Suggestions for changes, amendments and new topics may be forwarded as and where required.

Annex A to
Cafeteria Policy
